TECHNICAL EXPLANATION OF THE CHANGE

Issue Water Diverting System Change

Explanation

In order to use a new part in our new projects we need extra area on the detergent box cover. For this reason we had to modify the cover. Because of this change the route and lenght of the Movement transmission wire also had been changed. The new lenght of the wire is $477 \pm 0,5$ mm). The new route of the wire is shown in figure 1 and 3. The wire should be located between the first two clips (figure 4) and the wire has to be fixed to the cam follower as shown in figure 2 and 3.
